Detailed Action

1. Response filed 09/30/2005 is acknowledged. Claims 107-112 are added. Claims 2-4,8-11,15,16,18-21, 96-112 are pending.

Applicants arguments with respect to rejections of record under 35 U.S.C. 112, first paragraph are considered and are deemed to be persuasive. The rejections under 35 U.S.C. 112, first paragraph are withdrawn.

The remaining rejections are double-patenting rejections of record.

Double Patenting

2. Claims 2-4,8-11,15,16,18-21, 96-112 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of copending Applications No.10/119480, 10/216159, 10/216160, 10/216162, 10/216163, 10/216164, 10/216165, 10/216166, 10/216167, 10/216168, 10/218849, 10/218930. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the pending applications are directed to polynucleotide SEQ ID No. 79 and polypeptide SEQ ID No. 80, which are identical to instantly claimed polynucleotide SEQ ID No. 1 and polypeptide SEQ ID No. 2. Further, claims #4 in the cited applications are directed to polynucleotides having >80% identity to polynucleotides listed in Table 1, PTA-1181 (i.e. instant SEQ ID No. 1) in particular.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

3. Claims 9, 15-21 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over copending Application No. 10/218631, 10/227884, 10/230338, 10/230631. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are directed to polynucleotides having >80% identity to polynucleotides listed in Table 1, PTA-1181 (i.e. instant SEQ ID No. 1) in particular.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Priority

4. Applicant's claim for domestic priority under 35 U.S.C. 119(e) to US serial No 60/175849 is acknowledged in view of showing by applicant of the support for the claimed subject matter provided in the provisional application.

Information Disclosure Statement

5. The information disclosure statement (IDS) submitted on 09/30/2005 is considered by the examiner.

Conclusion

6. Claims 2-4,8-11,15,16,18-21, 96-112 would be allowable if double-patenting rejections of record are overcome.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
